Linguistics Journals

The UC San Diego Library subscribes to hundreds of journals for linguistics. The list below is just the tip of the iceberg!

If you would like to find out if we subscribe to (or have back issues of) a particular journal, use the e-Journal search box linked below. To see a list of all linguistics journals that the Library has, use the library catalog to search on the subject "Linguistics--Periodicals".

Select List of Linguistics Journals:

- **Applied Linguistics**
  Publishes research into language with relevance to real-world problems.

- **Cognitive Linguistics**
  A peer-reviewed journal of international scope for linguistic research of all kinds on the interaction between language and cognition, particularly works that represent a significant advancement to the theory or methods of cognitive linguistics, or that present an unknown or understudied phenomenon.

- **Cognitive Science**
  A multidisciplinary journal of artificial intelligence, linguistics, neuroscience, philosophy, psychology.

- **The Journal of the Acoustical Society of America**
  The leading source of theoretical and experimental research results in the broad interdisciplinary subject of sound.

- **Journal of Cognition & Development**
- **Journal of Linguistics**  
  Publishes articles that make a clear contribution to current debate in all branches of theoretical linguistics. The journal also provides an excellent survey of recent linguistics publications, with book reviews in each volume and review articles on major works marking important theoretical advances.

- **Language**  
  Journal of the Linguistic Society of America that is published quarterly and contains articles, short reports, and book reviews on all aspects of linguistics, focusing on the area of theoretical linguistics.

- **Language, Cognition and Neuroscience**  
  Formerly titled: Language and Cognitive Processes. Publishes high-quality papers taking an interdisciplinary approach to the study of brain and language, and promotes studies that integrate cognitive theoretical accounts of language and its neural bases.

- **Linguistic Inquiry**  
  Leads the field in research on current topics in linguistics. Each issue informs of new theoretical developments based on the latest international scholarship.

- **Mind and Language**  
  Brings together work in linguistics, philosophy, psychology, artificial intelligence, cognitive anthropology and cognitive archaeology. Along with original articles, the journal publishes forums, survey articles and reviews, enabling researchers to keep up-to-date with developments in related disciplines as well as their own.

- **Natural Language & Linguistic Theory**  
  Provides a forum for the discussion of theoretical research that pays close attention to natural language data, so as to provide a channel of communication between researchers of a variety of points of view.

- **Sign Language & Linguistics**  
  A peer-reviewed, international journal which aims to increase our understanding of language by providing an academic forum for researchers to discuss sign languages in the larger context of natural language.

- **Studies in Second Language Acquisition**  
  A refereed journal of international scope devoted to the scientific discussion of acquisition or use of non-native and heritage languages.
